Mr. H. Weiburg
Route 8
Freddicktown, Maryland

Dear Sir:

I heard you on a radio interview Sunday Nov. 17. You spoke of the assassination of President John F. Kennedy. This is my second letter to you because the first letter came back for the reason of insufficient address.

1. Who in your opinion killed President John F. Kennedy? Why?
2. I'm now reading, "The Rich and The Super-Rich" by Ferdinand Lundberg. On page 315 the last paragraph says that 35 years ago J.P. Morgan, John D. Rockefeller I, and Andrew W. Mellon controlled Wall Street or/and the United States. What prospered people control the United States Government now?

There is a mystery behind the deaths of Dr. Martin Luther King and Malcolm X. There are rumors that these were political killings. People are saying that the C.I.A. (the invisible government) engineered the killing. Could you express yourself on this matter? Especially emphasize who the interest groups were that financed and/or

initiated the killings.

Please note: In 1704 Speaker of the House of Commons, Mr. Robert Harley assigned Mr. Daniel Defoe to be chief spy (author of Robinson Crusoe works). Mr. Defoe applied on a grand scale spying on the English population. This is how Great Britain acquired her empire.

During slavery the slave-master employed informers to oppress men. During "The Great Flint Sit-Down Strike against General Motors in 1936-37," General Motors (DuPont) hired Pinkerton Detectives to spy on the strikers. Today we read of informants in the case of Jerry Rubin in Chicago, R.A.M. back East, and during riots. After observing the demonstrations at San Francisco State College — I'm positive that we live in a subtle police state! When a militant makes a speech in San Francisco half the audience are secret service men. I ask you, sir, what is the origin of these secret service men? Are they C.I.A., F.B.I. or city Police?

Please reply. If there is a fee let me know.

Yours, Comitras and Peppa, New York

Sincerely yours,
Joel Anderson
